FLEXIBLE DUCT CONNECTORS

- Fabric Rolls
- Fire Rated Fabric
- Fabrics with GI Strip
- Fibreglass Insulated Fabric
- 2 Ply Fabrics | Double Canvas
- Factory Fabricated Flanged Connectors

- Materials : PVC | NEOPRENE | SILICONE
- Fabric Sizes : 150.200.300.350.1000.1500mm width
- FDC Sizes : 45x60|100|150 . 70x100|150

Flexible Duct Connectors

Air Duct installation connected with Fans, Blowers and Air Handling Units should be installed with Flexible Canvas connections to **eliminate transfer of noise and vibration throughout the entire ducting.**

- **NFPA Approved**
- **UL Listed Fabrics**
- **Fire Rated & Retardant**
- **Available in 2 Ply and Fibre Glass Insulation**
- **Suitable for Temperature ranges upto 400°C**
- **Customised to Round, Rectangular and Square connectors**

FLEXIBLE CONNECTIONS
SILICONE / NEOPRENE / PVC | FABRIC WITH GI STRIP

Temperature Ratings	
ROBG / PVC	-30.c / + 70.c
NEOPRENE	-20.c / + 100.c
SILICONE	-50.c / +200.c

Available as **Fabric Rolls**, **Fabric with GI End Strips** and factory fabricated **Flanged Connectors**, to isolate transmission of noise and vibrations.
